Meet with Cuban youth, leaders, health workers, artists and others who are transforming their communities. Visit churches and social change organizations and see, first-hand, the vibrant hope and spirituality of the Cuban people!

Discover the rich fabric of Cuban culture through jazz, concerts, the ballet, museum visits, lectures, and free time in Havana and Varadero.

Reflect on your experiences and share insights with your fellow travellers. And return home inspired to act on what you learn.

"Accommodations and meals were first class. Cubans are so friendly and extend themselves to make their guests feel welcome and comfortable. We spent time exploring in depth, with time to ask questions."

"Highlights for me...all the cultural experiences, creating connections within our group, and seeing how Cubans manage to do so much with so little."

"Christianity is very much alive in Cuba!"
